(1) Government uses are exempt from paying impact fees used to develop that same use. This is because legally, if the development does not create a demand for the facility, or indeed, mitigates the need for the facility, it should not pay the fee. In other words, a new jail will not pay the correctional facilities impact fee, a new fire/EMS station will not pay the fire/EMS impact fee, and a new government office building or office complex will not pay the public buildings impact fee, etc. Specific government uses that are not included in the schedule, such as a sheriff's office, will be classified under government office building or complex as appropriate. These uses will not pay the impact fee used to develop them (e.g., a sheriff's office will not pay the law enforcement impact fee, etc.).

(1) Government uses are exempt from paying impact fees used to develop that same use. This is because legally, if the development does not create a demand for the facility, or indeed, mitigates the need for the facility, it should not pay the fee. In other words, a new jail will not pay the correctional facilities impact fee, a new fire/EMS station will not pay the fire/EMS impact fee, and a new government office building or office complex will not pay the public buildings impact fee, etc. Specific government uses that are not included in the schedule, such as a sheriff's office, will be classified under government office building or complex as appropriate. These uses will not pay the impact fee used to develop them (e.g., a sheriff's office will not pay the law enforcement impact fee, etc.).
