Affidavit of Awareness for Roof Mounted Solar Photovoltaic or Solar Thermal Water Systems

NOTICE TO OWNERS:

Installation of roof mounted solar photovoltaic or solar thermal water systems typically require roof system penetrations to allow attachment to the structure which may affect your roof system and/or any roof warranty. Roof system maintenance, repair or replacement may require removal and reinstallation of solar panels / arrays.

Before a building permit can be issued, this disclosure affidavit must be completed and signed by the property owner. Documentation acceptable to the Building Official verifying ownership of the property is required when the permit is issued.

The undersigned agrees that he / she has read and understands the above notice and further acknowledges that unless otherwise specified in the contract, the roof penetrations are being done by a Licensed Solar Contractor as allowed by FS 489.113(3)(f), or by a roofing contractor as defined in FS 489.105 (3)(e).
