RE: Ocean Concrete, Inc., Site Plan App. #57127, Project #2004110124, SP-MA-07-03-15

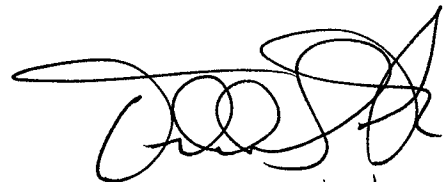

Dear Mr. Keating:

On behalf of Ocean Concrete, and pursuant to County Code Section 914.06(4)(d), this is to request a one-year extension of the referenced Ocean Concrete Application.

Because this is our first request for extension, we trust that consistent with established County practice and policy, the requested one-year extension will be automatically and summarily granted. Our grounds for the request include that we have been working diligently to address the numerous comments of the TRC in its January 2, 2007 letter and made our final submittal to address all comments from TRC, and in addition, our efforts and attention have been diverted to the numerous legal and regulatory matters that have arisen with respect to the site and project, which intertwine with the final approvals of this project.

If at all possible, please advise us of your decision by next week, November 21, so that we may plan accordingly.

Sincerely,

Todd Smith, PE  
For Ocean Concrete, Inc.
